What to Bring
Digital Filmmaking

**Camera:** Video-capable DSLRs are HIGHLY RECOMMENDED. No consumer DVDRAM or MiniDV Tape camcorders may be used!

Not recommended, but also acceptable are Flash or HDD (hard drive) camcorders only. If looking to purchase, visit B&H Photo/Video, or Amazon.com. Some suggested video-capable DSLR cameras and digital cinema cameras include:

- **Entry Level:**
  - Canon EOS Rebel T2i or newer: $300 and up
  - Nikon D3100 or newer: $450

- **Mid-level:**
  - Canon 60D or newer: $876
  - Nikon D7100 or newer: $1500

- **Advanced Level:**
  - Canon 6D or 5Diii: $1800 or $3000
  - Nikon D810: $3000
  - Sony A7 series: $2500
  - Black Magic Pocket Cinema Camera: $875 (lens must be purchased separately)

**Note:** Cameras not on this list maybe be acceptable, please be sure of 1080p HD video recording, and MANUAL exposure controls.

**Additional Materials:**
- Two 16GB or 32GB Class 10 memory cards for your camera (if your camera uses cards)
- Highly recommended: 250GB or more storage space
- USB external hard drive (for personal storage)
- All cords needed to connect your camera and hard drive to a computer
- Headphones/earbuds
- Notebook, and pens or pencils
